THE TOWN OF KLAMATH.

ON THE KLAMATH RIVER—The only direct and the cheapest route to the Klamath and Salmon River Mines—has been surveyed and laid out, being situated about three miles from the entrance of the river into the Pacific, in latitude 41 deg. 33 min. North, about 250 miles from San Francisco, and is destined speedily to become one of the most flourishing towns in California, as premised from the following facts, to wit: The Klamath River affords a safe and excellent Harbor, and at all times capable of ingress or egress to the heaviest shipping; and is navigable for steamers from the Town to the Mines, distant from 50 to 75 miles. The river abounds with the finest salmon, the valleys with deer and elk, the forests with a noble growth of pine and red wood, fit for piles, spars, or lumber. While the Mines on the Klamath and its numerous tributaries, among which are the Salmon, Shasta and Ross rivers, are, it is confidently believed, paying better than any other mines in California, as during the past season they have averaged not less than one ounce of gold per day to a man, while multitudes of the more industrious class have made their two and three ounces a day. The climate is one of the finest and most healthy that California affords. Therefore, to the Merchant, the Miner, Mechanic, and Capitalist, it may be truly said: here is presented a field for the investment of labor and capital not surpassed by any other in California. Vessels are now running from San Francisco to the River, and a line of steamers will soon be put on the route; also a steamboat to ply between Klamath and the Mines.

For further particulars inquire of SHULTZ & PALMER, foot of Jackson street, or JOHN GRAY, Jr., Central Wharf, opposite Whitehall, where maps of the Town can be seen.

MISCELLANEOUS.

PROSPECTUS OF THE MONTEREY GAZETTE.

THE UNDERSIGNED proposes to publish in the city of MONTEREY, a Weekly Newspaper, to be called the MONTEREY GAZETTE.

In a country where, above all others in the world, newspapers constitute a necessary of life to the poor as well as to the rich, it is needless to say much in behalf of the present enterprise. We believe the interests of the city of Monterey and of the Southern section of California demand the establishment of a newspaper, and we devote ourselves to the task, in the confident expectation that the intelligence, enterprize, and business of the people will amply sustain us.

The GAZETTE is not designed as a party organ. Entirely independent of political parties, it will only treat on political questions in reference to the public good, without descending in any case, or in the least degree, to partizan or personal warfare

The *Commercial and Trading* interests of Monterey and consequently of the Southern section of California will form a permanent subject in our columns. To business men in general, we offer our services; and we shall spare no efforts to promote their prosperity and the welfare of section of the State—which we shall more specially represent.

Another leading object of the Gazette will be to develop the *Mineral and Agricultural Resources* of our young and thriving State. Rich as are the mountains and rivercourses with precious metal, we believe the valleys and plains of California contain a mine of wealth still more valuable and inexhaustible. On the agricultural improvement of our State, depend in a great degree its permanent growth and lasting prosperity. To this important subject we shall direct especial attention.

The cause of *Popular Education* will also demand a large share of our regard. The rising generation, to whose charge will shortly be entrusted the destinies of the country, must be qualified for this responsible and noble trust by a judicious and efficient system of Common School education.

Another prominent purpose of the MONTEREY GAZETTE will be the promotion of good morals. In vain shall we hope for continued prosperity, either as a community or as individuals, where vice prevails over virtue. Men, destitute of good moral principles, are incapable of self-government, and unfit for the management of republican institutions. Vices which prevail to the injury of society, we shall not fail to expose and condemn.

The particular interests of the city of Monterey, we shall strive to promote; not as a rival of other flourishing towns in Southern California, but as a member of the same family, identified with them in the same common fortune. Its location, convenient to the Mining region, mark it as the future depot of an extensive and profitable trade; and its situation as a sea-port, imparts commercial advantages which will render it, before many years, one of the most important maritime cities on the Pacific. The GAZETTE will guard these great interests, and labor to advance them by all practicable means.

The GAZETTE will also present its readers with news domestic and foreign, to the latest possible dates. To accomplish this purpose with the greater certainty, a regular correspondence has been opened with San Francisco, New York, Philadelphia, and other places.

As an advertising medium, men in business will find the GAZETTE a ready means of communicating with the public and enhancing their interests.

For the benefit of that portion of the population, not conversant with the English tongue, one side of the GAZETTE will be printed in Spanish, and the Editorial and other leading articles will be inserted in both languages.

The subscription price will be *Sixteen Dollars per annum*, payable invariably in advance. The first number will be issued on or about the 1st of February, 1851.

A War Loan.

Some time since, the Legislature passed an act authorizing the State Treasurer to negotiate a loan upon the faith and credit of the State, for the purpose of defraying the expenses, which have been, and may be, incurred in suppressing Indian hostilities, in the absence of adequate provision being made by the General Government.

This act was passed by virtue of the power delegated to the Legislature by the eighth article of theConstitution of the State,authorizing the raising of money "in case of war to repel invasion or suppress insurrection," and empowers the Treasurer to negotiate a loan not exceeding $500,000, payable in ten years, and at any period after five years, at the pleasure of the state, to bear a rate of interest not exceeding twelve per cent. per year, payable annually, or semi-annually, at such places as the contracting parties may agree, the interest of the first year to be paid out of monies so raised, the Treasurer to issue bonds in sums not less than $1,000.

The act authorizes the Treasurer to negotiate such loan as speedily as possible, and such time and places, and in such amounts as the exigencies of the state may require, but that no loan shall be negotiated below par value thereof. For the redemption of the bonds so issued, as a special fund, the act sets apart any claim which the state has now, or may hereafter have, upon the General Government, for monies expended out of this loan for the purposes for which it is raised, together with all other monies in the treasury not otherwise appropriated.

The necessity of immediately negotiating the loan authorized by this act, is apparent to all. The Indian troubles in our mountains demand prompt action, that the miners may be permitted to carry on their labors without the constant and serious interruptions which have been so great a source of annoyance for the past few months. The peculiar situation of the State, requires that she should herself step forward and pledge her own faith for the redemption of the bonds issued for this purpose, without waiting for action on the part of the General Government. Circumstances will not admit of the delay necessary to secure the action of Congress, and the appropriations of monies, but as heretofore, the General Government will undoubtedly liquidate every and all debts incurred on account of these Indian troubles. She has always done it in the past, for other States of the Union, and California will not form an exception to a principle so just and so general in its application in the past.

For the purpose of negotiating the loan provided for under this act, Major ROMAN, the Treasurer of the State, is now on a visit to this city, and will remain at the Union Iotel until Friday next.

Capitalists who may wish to invest in a afe and satisfactory way, should improve the pportunity thus afforded. There is no risk vhatever connected with the transaction. The State itself will ultimately be able to redeem every dollar of debt incurred, without reference to the action of the General Government, which will, without possible doubt, make the necessary appropriation as soon as the wants of the State shall be known in that regard.

Agricultural Prospects.

Throughout all the valleys of California, may at this time be seen the evidences of a new era for the State, in the preparation by her own citizens, for producing in abundance the staple articles of supply for the entire population now within our borders, and for all who may come during the year.

In the Santa Clara Valley, where we have resided for two months, we observed thousands of acres being broken up for cultivation: and from the unsurpassable fertility of the soil, and the important fact that in ordinary seasons no irrigation is required to produce the most abundant crops, a value will be given to lands in the agricultural districts far greater than has ever been claimed.

With the introduction of a permanent population into our State—men of every calling and profession, who come with their families to make this their future home—a career of durable prosperity will dawn upon California; and till this be so, revulsions, and fluctuations will mark the operations of every department of business and industry.

MARIPOSA QUARTZ *MINES*.—We conversed with a gentleman from *M*ariposa last evening, who brings the most flattering accounts from the quartz mining companies in that vicinity. He says that *M*r. Jackson has an eight horse power engine at work, and is employing thirty hands, and that their daily operations range from $460 to $1200, receipts. They calculate to average at least fifty dollars per hour. Our informant says that from the best information which he obtained, Aspinwall's vein was yielding still better.

☞ Owing to some misunderstanding as to the time when the presentation of the gold salver to Col. COLLIER should have taken place, it was postponed until this evening, at 8 o'clock, at the Merchants' Exchange reading room.

FROM TRINIDAD.---The Sea Gull arrived yesterday morning, from Trinidad. An interesting letter from a correspondent, in regard to matters in that region, will be found in another column. **The Sea Gull brought but five passengers.**

Sierra Nevada Quartz Mining Company.

We understand that the gentlemen who are the proprietors of the quartz vein at Grass Valley, of the richness of which we made mention a few days since, have concluded to sell fifty shares, and for this purpose have formed a company and issued scrip to that effect. If there is any truth in figures, their estimates show a most profitable investment. Since publishing our first statement, we have seen private letters from miners living and working at Grass Valley, which corroborate all that has been previously said of the richness of the vein. Several pieces of rock have been analysed by MOFFAT & Co., which have yielded from fifty to ninety-five cents to the pound, where not a particle of gold could be seen with the naked eye, while the specimens which we have inspected, must yield from two to ten dollars per pound.

The company have about fifty tons of rock already raised, and have twenty men at work getting out rock, whose expenses have all been paid by breaking small portions with a hammer, and washing without quicksilver. The rock already raised is to go in on shares sold. The shares are held at five hundred dollars each, and dividends to be declared and paid every thirty days. From the character of the gentlemen who are engaged in the work, we have every confidence in the fairness of their statements. They wish any one desirous of taking an interest to visit the mine before purchasing stock and examine it for themselves. We append a calculation of the amount to be daily worked.

They can raise daily and crush with a twenty horse power engine 20 tons, or 40,000 pounds. This may be estimated at twenty cents per pound: $8000. Deduct expenses, $225—leaving nett, $7,775.

It will be seen that the above is predicated upon a yield of twenty cents per pound of Quartz, and that no assay has yielded less than fifty cents. It will take but a short time, even at this rate, to make the fortunes of the stockholders. We understand that the agent is Mr. ALONZO DELANO, who has a large number of specimens at his office, which for the present is at Perkins' Vegetable Depot, on Long Wharf opposite the New World Hotel.

Our San Jose Correspondence.

SAN JOSE, February 24.

Editors of the Pacific News:

Another day has been wasted in balloting without any progress, except that the name of Mr. Weller was withdrawn by Mr. McCorkle. The one hundred and tenth ballot stands—King, nineteen; Heydenfeldt, fifteen; Fremont, thirteen; and Geary, one. During the forenoon, the balloting was kept up steadily, with scarcely an interruption, until one hundred trials had been made, when a recess was carried to half-past seven, P. M. After the Assembly had retired, Mr. Broderick renewed his motion for the Senate to withdraw, which, as usual, failed. Ten ballots were held this evening, with the result before given.

Speculation as to the final result is useless. The Democrats are responsible for all the delay, all the cost, and all the loss caused by a suspension of the Legislature. Mr. King has a fair claim upon those who have thus steadily adhered to him. As a party, they are right, and the Democrats could learn a valuable lesson from their adhesion. The result of one hundred and ten ballotings, has fully proved my calculation, that the Democrats could give *the choice of the party as a whole*, four majority; it yet remains to be seen whether they have enough of the old leaven of Democracy in them, to throw aside all personal preferences and secure a Senator.

Mr. McCandless was brought into the Convention on a cot to-night, and voted steadily for Mr. Heydenfeldt. His arrival in his bed was the only event of the day, which has been too stupid to be written about.

COMMON SENSE.

THE "BALL GAME."—A man just down from up country, applied last evening, to the police office, stating that he had that afternoon been swindled out of $280, all the money he had, by two of the *chevalier d'industie* of the city, at what is called the "ball game." This game consists of a round ball of wood, a little less in size than a hen's egg, notched all over, and having an opening, in which a five cent piece is placed and then closed. The "legs" then bet their dupe any amount of money that he cannot get the piece of money out of it, by finding the opening, which is indeed difficult for those even acquainted with the ball, but is made more difficult, and an utter impossibility, when the ball is *changed* for one resembling it which has no opening at all, as was in this instance the case.

RACE TO HONOLULU.---Two of the finest schooners which have entered our port, the *Col. Fanning* and the *Golden Rule*, leave for Honolulu to-day. Both are fast sailers, and as there is some little feeling between the friends of each, they will press all sail to determine which is the faster vessel.

Sea racing is getting to be "all the rage." Two vessels are now racing it to China; two leave on a similar strife for Honolulu to-day, and last night the steamers Senator and Confidence made a rush the same minute for Sacramento. California is getting to be a fast country!

INSULTING FEMALES.---A well dressed man was arrested yesterday evening, by the 2d district police, charged with insulting females along the streets. Being considerably in liquor at the time, we do not mention his name, hoping that he will explain or relieve himself somewhat of the charge on being brought before the Recorder this morning.

STATE ARMORY.---The large room immediately over the publication office of the *News*, is now occupied as a State Armory, under the charge of JOSEPH C. MOREHEAD, Quarter Master General. A large stand of **arms was yesterday received, and ranged about the room.**

Our Trinidad Correspondence.

Editors of the Pacific News:

Having been a passenger in the "Sea Gull" on her late trip to Port Trinidad and Humboldt Bays, it may be of service to some of your readers to give them a description of that part of the country that is attracting the attention of a large portion of the people of California.

Port Trinidad is situated in latitude 41 05 North. It contains from twenty to thirty small houses; is a poor harbor, and cannot be considered safe for vessels at any time, as we were obliged to keep up steam and weigh anchor during a little squall from off the land to keep from being wrecked. Here packers charge one dollar and a-half per pound to Scott's and Salmon Rivers.

Humboldt Bay, situated about fifteen miles to the southward; is a most beautiful sheet of water, of eighteen miles in length, varying from one to three miles in width; easy of access, having three fathoms and a-half of water on the bar at low tide. The town of Humboldt is located near the entrance, it contains from ten to fifteen small houses, and does not appear to be improving much.

About two miles up, and on the opposite side of the bay, is what is called West Humboldt, which contains one house, and from its location, being on the outer side of the bay, cannot amount to much.

About four miles further up we come to "Eureka;" containing about twenty houses and one stea saw-mill about completed. Here we landed, and took small boats up about six miles to Uniontown, at the head of the Bay. Here we found quite a thriving town of about eight months growth, containing about five hundred inhabitants, and one hundred buildings and many new ones in progress of erection.

From here the miners bound to Trinity, Klamath, Scott's and Salmon Rivers, and their tributaries, take their departure, finding it by far the cheapest, shortest and best route to all that vast northern mining reigns. The price of packing being from fifty to eighty cents per pound, and the citizens with a spirit of enterprise and liberality that is certainly commendable in them, have opened a new road at an expense of $3500, that shortens the distance to the above mines from six to eight days.

They are also about to erect a wharf in front of the town, to cost five thousand dollars, that will enable vessels drawing fifteen feet of water to come along side and discharge; and aside from its being the nearest point in the northern mines, it must become a very important place, as it is surrounded by the finest agricultural lands in all California, and is the only safe and capacious harbor from San Francisco to the Columbia River. *Many* have considered the bar at the entrance of the harbor a dangerous one. Such is not the case. Captain TICHENOR brought the Sea Gull out with perfect safety after seven o'clock in the evening, it being dark, and the wind blowing heavy at the time from the south-east.

I would recommend all who have occasion to travel on this route, to take the Sea Gull; they will find her a fine steamer, and Capt. Tichenor as fine a man and as good a sailor as ever trod a deck, and his officers gentlemanly, kind and courteous.

Yours, &c. W. C. M.

GOT LEFT.—A number of passengers who had bought tickets on the steamers Confidence and Senators, last evening, were left in consequence of the boats departing at an earlier hour than usual. There was considerable excitement on Long Wharf, to witness the departure of these steamers, as it is generally believed that this trip will decide **as to which is the fastest boat.**

Since that time, the merchants of the city have presented to Col. Collier, a salver for the goblet, which is of pure California gold, weighing 28 ounces, and valued at $1500. It was manufactured by Messrs. JACKS & BROTHERS, to whom great credit is due for their skill and ingenuity as artists. The inscription is as follows:

An Accurate List of the Lawyers,
Their former places of Residence, and Date of their Arrival in San Francisco.
THIS WORK will enable every man to form an opinion of the present wealth of San Francisco and Sacramento City, and give their friends in the East a better idea than can possibly be conveyed in the pages of a letter. The price at which it is sold, (50 cents,) places it within the reach of all, and as we have limited the edition, we can insure copies to those only who call early.
The list of Lawyers is worth the whole price of the Book

Being in a feeble state of health, the subscriber is compelled to take a voyage to the Sandwich Islands, and will therefore sell out his stock in trade and good will, at low cost per inventory, or receive a partner who can advance either the same sum he has invested, or even less, if said partner is in other respects desirable. His late firm has just divided equally and amicably about TEN THOUSAND DOLLARS, realized in a few months. This, and much more can be done over again and he would venture to say $20,000, during the business year, and as his return would be immediate, his experience in purchasing, selling &c. would be given wholly to the business with renewed vigor. He has two stores in full and successful operation. Apply in person at the store in Pacific street, below Kearny. (jan15 tf) ROBERT JACKSON.

KLAMATH RIVER.

SINCE the announcement of the discovery of the Mines on the Klamath river and its tributaries, the anxiety of the Mining portion of the community has been very great to learn whether they are really productive or not. Their great value having at last been reduced to a certainty, the next question that arises is—Which is the most desirable way of getting there? To those going, we would say, take the favorite bark CHESTEE, Capt. Warren, which will positively be the first vessel from this port. She has just returned from there, making the run in 36 hours. The supercargo of the vessel is thoroughly acquainted with the mining region, and will with pleasure impart every information possible. The price of passage is only $12. Persons taking passage in this vessel will be sure of getting to the Mines in good time, and at an expense not rising $20, all told, from here to the Mines. For further information or passage, apply to EDWARD COLE,

NEW ARRANGEMENTS.

THE PROPRIETORS of the U.S MAIL Line of Stages have discontinued running their line *through* by land between San Francisco to San Jose, and are now running a DAILY Line to and from the Embarcadero in connection with the steamers WM. ROBINSON and NEW STAR.

Stage Proprietors.

SAN JOSE. SAN JOSE.

BERFORD & CO'S LINE

OF EXPRESS MAIL STAGES,
HALL & CRANDALL, PROPRIETORS,

ARE now running every morning to San Jose, leaving Berford & Co's office, in the Plaza, at 8 o'clock, A. M. and the City Hotel, in San Jose, at 7 o'clock, A. M.
The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skilful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.
The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to SAFETY, while the drivers, who have served a long apprenticeship from New England to Mexico, make the QUICKEST time and NEVER MEET WITH ACCIDENTS, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial. n7tf BERFORD & CO.
